Duty of the Public. There is rea on to believe that the execusly improved in certainty and cele nders supposed to be beyond the reach of and the courage of juries, been overhanded and summarily deals with. Not long sloce and fr the first time sloce Chicago had a name, a murderer was hung by the neck un-til as the law directs, he was dead—a most lives provided for such, the conviction the ause for congratulation; but now and then the bave some case specially forced upon the li . wh . h displays the improvement of n he Recorder's Court. We refer to the a violent and brutal assault upon Mr. Keith a teacher in one of the public schools. The erable wealth and of some social standing the crime was clearly proved; and to the dr way to be appropriately punished.

To ensure the good which will spring from he prompt, Impartial and mexorable execu tion of the crimina: law, the public have du They must see that the law is pi framed and justly administered, a hen they must be content to let it takes it appointed course. It is the fachion for con victed offenders to plead, through their friends, for remission of the penalties which they have incurred; and no sooner is a conion pronounc d than all the leading ar influential members of community are be-with importunate solicitors, who invok their aid in shielding the convict from the which he has brought down upon him vine attribute; but mercy without justice is an invention of the devil. Those, then, who yi l1 to the entreaties and persuasions of friends, and assist by their names and influ-ence in withholding from criminals the punishm at they deserve, are turning our cour into play houses in which solemn farces a ed, and are inflicting injury upon socie that they will never be able to repair. Wer is demanded from the law and its tribuna ordinate or excessive punishme We want the greatest attainable certaint that conviction will follow guilt, and the that conviction will follow guilt, and the this or an approach to It, our courts ha cared, if every ruffian who thrusts a knif-into the vitals of a foe, if every man o ition of the public between him and the alty that be has earned? The whole thing Evaded. The time of yesterday protends to reply to the charge preferred by Judge Trumbul against Judge Douglas of complicity in the chems to torce a pro-lavery constitution upon the people of Kansas, but it really avades the subject by stating false issues New the True the sustanting false issues Says the Tines, the statements made by 1

the Trace very innocently says, in answer to the second proposition, "if there were no clause in the bill repering the constitution to be submitted when it was referred, it could In another column we have shown that there

sees such a clause in the bill, that it is as stroken out, and that Douglas confessed that he did it in consultation with Mr.

The third proposition the Times evades by the same quibble as the above.

The fourth proposition is a man of straw go up by the Times for the purpose of shirking a reply to what Senator Trumbull really did sa. His statement was that he had pointed out, on the floor of the Senate, that the Toombs bill, as reported back by Douglas, did not contain a clause requiring the submission of the Constitution to a vote of the prople of Kansas. This statement is proved by has speech to be found in the Appendix to the Congressional Globe, 1st Session 34th Congress, page 799; and we trust that if any one still catertains a doubt upon the subject he will examine the matter for himself. What the Time puts into the mouth of Senator

Trumball, but which nothing that he said in his speech warrants, it of course fluds no difficulty in demolibing.

The less proposition the Times gets rid of in the same manner that it does the second and third. In short the whole thing is an evision of the real charge from first to last, a pitiful attempt to bolster up a rotten cause by pnerile guilbling and the most barefaced pettifogging and lying. But it won't do. Douglas is fairly caught. The Congressional records fasten the infamy upon him; these are open to the impretion of the people, and all the fairly and of his hired retainers cannot mystally or cover up the facts.

Judge Douglas and the Toomb's Bill.

In his speech in this city on the 7th inst,
Judge Trumbuil charged Senator Douglas
with have stricken from the Toomb. Kansas to the letter, true by the official records of the proceedings in Congress, true by Douglas' tes, will find the same evidence in supp r of this charge that he will in support of the fact that Judge Douglas originally intromay be disputed in both cases, just as any other historical event may be disputed, but to so betokens a hardihood and reckless

equirement as the former. Here the Kansas Jonstitutional Convention is required to sub-nit certain stipulations to the people of Kanas for their ratification or rejection, and the abmission s required to be made at the elecon for the adoption of the Constitution fow we put the question to the practical, ommon sense people of Illinois—"Do not ommon sense people of limited.— Do not have have two requirements necessarily inc ude a a third equirement—namely, the submission of the Constitution itself?" There is of a truthful, caudid man, given to sir-dealing and honesty, but will admit at the requirement to so submit the constitution is just as imperative as the re-, in the provision above quoted, shall be a mitted. So much for the dodge of the

imes on this point.
When Mr. Douglas reported back the bombs bill to the Senate, the section which e have quoted above had been eviscerated of s popular sovereignty so as to read as fol-

"That the following propositions be, and the me are hereby affered to the said Convention . Kansas, for their free acceptance or rejection, which, if accepted by the Convention, and the obtgatory upon the United States and upon the aid State of Kansas."

Gerrit Smith, of New York is a large-hearted, woong-headed, learned and stupid, talented and foolish, sincere and dangerous man. That he most aidently desires the arrest of slavery-extension, and that he is devoted to the progress of civilization and the perpetuation of free institutions, no man who knows him can doubt. But that he is, at the same time, a most valuable ally of the propagandists and a most effective enemy of freedow, is just as clear. He made more capital for his opponents than for his friends when in Cougress, and in fact, ever since he entered public life, he has had the unfortufnate faculty of inflicting his heaviest blows upon those whom he has professed to love the best. The Bank Robbery at Bethel, Conn. \$86,000 SIOLEN-EOW IT WAS DONE.

GOVERNOR RANDALL'S LETTER TO THE LAND OPPICE DEPARTMENT.—Under date of Aug. 3d, Gov. Bandall replies to the letter of the Com-missioner of the Land Office, inquiring his rea-sons for not certifying to the La Cross and Mil-waukee Railroad Company the land granted to that road by Congress. The reasons assigned are that the grant of lands was made to the if other prior claims are not found; and if those that neighbors appraise the property at one-third more than it is worth, the creditor finds himself the owner of sundry articles of merchandise instead of the money on his execution, or he must wait the pleasure of the debtor for his nay. In Wisconsin a sale of real estate gives his nay. In Wisconsin a sale of real estate gives and for no other purpose whatever, they were placed at the dispu-State. The State, by an act appro 1856, contracted with the L. C. & M. R. Co. to build the western division contemplated by the act of Congress, by which the Company were to build railroads from the city of Madison and from the village of Columba, in the most direct and feather. Portage City to the St. Croix River or Lake, and from thence to Lake Superior and Bayfield, the same to be commenced at the southern ter-mini, and completed to Portage City by the 21st of December, 1858. As yet, the Governor says, not one mile of this portion of the road has been built, hence their contract with the State entitling them to any lands will be annulled, as it will be impossible for them to complete the required sixty miles by the time specified. Again the Governor says, in direct violation of

> dollars on their par value, to build a branch of the L.C. & M. B. R. or a part of a railroad, from Tomah to the city of La Crosse, which branch it is not even pretended is on the line of the road for which the grant's made. In conclusion he says: "There is no desire to deprive the company of the Land Grant. All reasonable extension of time will be freely given to the company to enable it to fulfill its contract, if it will but manifest a disposition to perform. Just as fast as it builds the Land Grant road, it shall have certificates and lands.' RAILBOAD EXTENSION.—The cities anwegs, Wis, held a meeting on the 29th ult. to consider the expediency of aiding in the construction of a railroad connecting with the Chicago, St. Paul and Fond du Lac Railroad at Oshkosh, and running through their town. A resolution was passed pledging themselves to take stock in the same to an amount not less take stock in the same to an amo than fifty thousand dollars, provided the road e built within two years.

nothing and care nothing about his private character. I shall not imitate him, for he believes in personal detraction. Such conduct may become a member of the United States Senate, but it does not become an American gentleman; and so, in referring to Mr. Douglas, I shall speak of him as a Senator, and not as 9 man. In talking with me yesterday about Mr. Douglas, a gentleman asked, "is not Douglas as good a Democrat as he ever was, when did he switch off?" [Loud applause.] I don't refer to his switchig off in this place; that is a matter for him

is g off in this place; that is a matter for hit to settle with you; but I think it's a grea pity that he couldn't find a house in Clinton to settle with you; out; tunar in clinton good enough to sleep in.

Let us look at Douglas' political history for three or lour years back. He introduced the Kansas-Nebraska bill. He claims a patent right for his discovery of the great principle of squatter sovereignty. Such impudence is un, aralleled. Why, fellow-citizens, the principle of squatter sovereignty was discovered eighty-two years ago. When the discovery was made, the old State House bell rang out the glad tidings—other bells took up the glorious refrain; and from Massachusetts to South Carolina it was chanted in the cars of a free and brave people. The principle of squatter sovereignty was discovered on the fourth-day of July, seventeen hundred and seventy-six, by a number of big giants; and yet Stephen a Douglas, a latte giant, wants a patent right for the discovery of the doctrine that the inhabitants of a Territory, when they come to form a State Constitution, can "regulate their domestic institutions in their own way, subject only to the Constitution of the United States!" Who denies that right? Nobody.

their own way, subject only to the constitution of the United States!" Who denies that
right? Nobody.

Douglas is a shabby prelender and a miscrable charlatan. He says the principle of
squatter sovereignty underlies our goverument. Of course it does. But did he put it
there? Not by any means; it was put there
tong before he was thought of. And yet he
steals the glory which belongs of right to the
founders of our government. He not only
robe the living, but mallgas the dead.

But has Douglas been consistent in advocating squatter sovereignty since he introduced
the Nebraska bill in 1854? Certal ly not.
What did he do in 1856? The Toomby' bill,
when first presented to the Senate, contained
a clause authorizing the Constitution to be
submitted to the people of Kansas. The bill
was referred to the Committee on Territories.
He struck out the submission clause, and referred
the bill back to the Senate. What did he
strike it out for? We can't tell, of course, for
when he was asked that question in the Senate, by Senator Trumbull, he declined, to answer it. Well, if he was not in favor of subm ssion in 1856, he was not in favor of subm ssion in 1856, he was not in favor of subm ssion in 1856, he was not in Serverigifield
speeck. You all know what that speech was.

Douglas has been charged with being a Republican, or rather with advocating Republican measures. That is not so. I never charged him with being a Resublican, for I think his principles and those of the Republican party are very wide apart. He is more of a pro-slavery man than anything else. He owns slaves and hires them out, and the money which he receives for their labors is spent in eases of the Ear, with his new system.
